

Hands-on AI in Computational Medicine

(recommended order, not strictly required)

Medical Imaging

`01_medical_imaging.ipynb`

Brain MRI analysis
U-Net & MedSAM2
Dice metrics

Multimodal Integration

`02_multimodal_integration.ipynb`

Feature fusion
Patient networks & GNNs
Attention weights

AI-Assisted Computing

`03_llm_assisted_computing.ipynb`

Summarization & RAG
Classification
Code generation
